## Detailed information

Type of organization

Academic or research institute

Areas of work

Research Roadmapping, Education, Security, and Policy & International Engagement

EN

CBD Thematic areas

Biosafety and Biotechnology  
Cartagena Protocol on Biosafety

Regional area(s) of operations or political/economic group(s)

Americas - Northern America

Organization's profile

EBRC is a non-profit, public-private partnership dedicated to bringing together an inclusive community committed to advancing engineering biology to address national and global needs. We showcase cutting-edge research in engineering biology, identify pressing challenges and opportunities in research and application, and articulate compelling research roadmaps and programs to address these challenges and opportunities. EBRC members represent diverse perspectives of the engineering biology research community and include world-renowned scientists and engineers in synthetic biology.
